The Town Mouse and The Country Mouse

Once upon a time, a town mouse had dinner with his friend, a country mouse. The country mouse had (0) preparing corn and fresh peas. The town mouse tried to be polite but he didn't (9) enjoyed the food. "They are too plain," the town mouse explained. "You should come and try the wonderful food (10) on my town." The country mouse agreed.

The next day, they set off to town together. When they arrived at the town mouse's house, they headed straight for the cupboard. Inside, there (11) was jars of jam, rice and pasta. The country mouse was amazed by the food available.

Suddenly, the cook walked in. The mice quickly jumped out of the cupboard and (12) runs to the mouse hole. Eventually, the mice went out to find more food when the coast was clear. This time, (13) she went to the pantry and found a jar of prunes to eat.

"I've never eaten anything like it!" the country mouse excitedly exclaimed. Suddenly, the town mouse whispered "Quiet!" because a cat had come into the kitchen. The mice then hid in the cellar where they found some meat, fruits (14) or cheese. The country mouse saw a piece of cheese in the corner. He was about to (15) ate it but the town mouse yelled "Stop! It's a mousetrap!"

With that, the country mouse decided to go back home. "It's too dangerous here! I'd rather eat my plain food in peace than eat delicious food (16) until surrounded by danger!" he explained.

*Read the text below and complete the following table with no more than three words and/or a number from the text for each answer.*

**Life as a YouTube Star**

Nadine Lawrence, more commonly known by her online handle 'Naddy Latte' is a familiar face in the YouTube scene. With her bubbly personality and interesting lifestyle, she has more than 1.15 million subscribers and her videos have been watched over 800,000 times. Behind all these numbers, she's just a regular 22-year-old living in New York.

Nadine uploaded her first video when she was 12 years old and ten years on, she became a successful YouTuber. She did so while finishing her studies at Media College NYC in mass communication. She generally uploads weekly vlogs, tutorials, reviews and fun challenges on her YouTube channel.

Nadine's schedule is different each week. However, she usually spends Monday researching ideas that she wants to film that week. She will spend two days filming the videos for the week and then spends the following days editing. Being a YouTuber isn't just about making videos. Nadine also spends time to reply messages from her subscribers. Sometimes, she has a meet-and-greet session with her subscribers.

It's not all a bed of roses. In 2021, Nadine found out that her account has been hacked. The hacker had full control of her channel and Google AdSense account, which is how she gets paid for YouTube advertisements. Some of her videos were deleted and the hacker posted weird videos instead. It was a difficult time for Nadine because she cannot post anything on her account. It took more than five months before she got her account back. Now, Nadine has graduated and is planning to focus on her channel full-time. She said her goal is to reach 3 million subscribers in the next five years.

#### Geckos

Geckos are reptiles with unique characteristics. They have short stout bodies, big heads, tails, and soft skins and are usually small in size. (33) \_\_\_\_\_ Most of them do not have moveable eyelids so they keep their eyelids clean by licking them with their tongues.

Besides that, geckos' tails have special features that help them to balance their weight and store fat. The tail also helps this creature to camouflage itself. (34) \_\_\_\_\_ Apart from that, geckos have clear protective layers covering the eyes. Their feet are interesting as the pads of their long toes are covered with small plates that are in turn covered with numerous tiny hair-like processes that are forked at the end. This enables geckos to climb across smooth and vertical surfaces like walls and ceilings. Some even have retractable claws. Some researchers claim that geckos can run fast across the surface of a water body without sinking if they are threatened by predators.

These creatures are found in many habitats, usually in warm climates such as deserts and jungles. Geckos are omnivores as they mostly feed on fruits, insects and worms. (35) \_\_\_\_\_

The gecko is one of the few reptiles that produce sound. (36) \_\_\_\_\_ Most geckos are nocturnal, which means they are active at night. This species is oviparous which means female geckos lay eggs. Usually, geckos will lay their eggs on leaves or beneath the bark of trees.

<b>A</b>	Most geckos are brown or green with an approximate length of 3 to 15 cm.
<b>B</b>	They can make noises such as chirping, barking and clicking when they feel threatened or to attract their mates.
<b>C</b>	Some species of geckos feed on cockroaches, scorpions and mice.
<b>D</b>	If a predator attacks, the gecko will shed its tail.

### A Visit to Kuala Sepetang

Every year, many tourists flock to Perak for its cultural heritage and tropical beauty but only a few have heard of Kuala Sepetang. (37) \_\_\_\_\_ During the recent school holiday, my family and I had the opportunity to visit this hidden gem.

There were not many hotels in the village so we decided to stay in a homestay for two days and one night. (38) \_\_\_\_\_ There was a balcony, and we can see the view of the Sepetang River from our room.

The highlight of the trip for me was the boat ride around the village. The tour guide took us to the coastal mangrove area and a floating fish farm. (39) \_\_\_\_\_ After hours of sightseeing, we went to try the famous mee udang (prawn noodles). It's a local staple there and the noodles were delicious with their juicy and fresh giant prawns. That night, we also went on a night boat trip to see fireflies. It was amazing!

The next day, we visited a charcoal factory since this village is one of Malaysia's biggest charcoal producers. (40) \_\_\_\_\_ After that, we went up the Port Weld bridge – one of the most scenic spots in Kuala Sepetang – and saw local houses near the river with many fishing boats.

To sum up, it was one of the most memorable holidays I've been on. Kuala Sepetang is a peaceful and serene village full of history and nature. It is an experience that will stay with me for a long time.

<b>E</b>	During the boat ride, I managed to spot a beautiful pink Indo-Pacific humpback dolphin.
<b>F</b>	Kuala Sepetang is a small fishing village situated in Taiping, Perak.
<b>G</b>	We then explored Port Weld where we saw some parts of the old railway tracks.
<b>H</b>	The homestay was comfortable with beautiful murals decorating the rooms.
