Size matters

Here's something to think about the next time you go shopping. Have you ever noticed how many trolleys are available when you go to the supermarket? In my experience, it seems like hundreds! But how about the number of hand baskets? Invariably I struggle to find even one, especially when I only need a few items. Why might this be the case? Well it seems to be a tactic used to encourage us to buy more. If you are walking around with an empty trolley, you are more tempted to fill it, so if you are planning on only doing a quick shop, always try to find a basket. It will be lighter, easier to use and is sure to save you money!
