

5 $237 \times 4 = ?$

First, multiply the ones by 4.

7 ones $\times 4 =$ 28 ones

Regroup the ones.

28 ones = tens ones

Then, multiply the tens by 4.

3 tens $\times 4 =$ tens

Add the tens.

tens + tens = 14 tens

Regroup the tens.

tens = hundred | 4 tens

Lastly, multiply the hundreds by 4.

hundreds $\times 4 =$ 8 hundreds

Add the hundreds.

hundreds + hundred = 9 hundreds

So, $237 \times 4 =$ 948 .
