

Anakin is seriously ill. Help him find the organ that is not ok.

First, match the organs to the correct system.

Trachea

Stomach

Kidneys

Skull

Heart

Lungs

Arteries

Small
intestine

Biceps

Ribs

Tongue

Veins

Brain

Bladder

Digestive system

Respiratory system

Excretory system

Nervous system

Locomotive system

Circulatory system

Large
intestine

Bronchi

Ureters

Triceps

Nerves

Spinal cord

Alveoli

Blood

Urethra

Rectum

Diaphragm

Liver

Capillaries

Now, find the organ that is not in the right group:

Oesophagus liver stomach alveoli small intestine rectum

Lungs bronchi trachea nose capillaries mouth bladder

Heart veins liver arteriies blood

Bladder ureters kidneys heart urethra
