"Tell us about a subject that you like to study at school. Explain why you like to study it."

English

English is a fun subject for me. I like English because it helps me read interesting stories and write my own. Every day, we read new books and talk about them. I enjoy learning new words and using them in sentences. In English class, we also play games with words. These games make learning exciting. I feel happy when I understand a new story or write a good sentence. English helps me express my thoughts and ideas. I think English is important for everyone. That is why I like studying English.
