7 On the Moon

On the moon there's dust and rock. There are tall mountains, and big holes called craters. There's black space all around, and no blue sky. There's no weather because there's no sky. It's hot in the day and it's cold at night.

LIVEWORKSHEETS

An Astronaut

Astronauts can go to the moon. This astronaut is on the moon. How amazing! He has a space suit and he breathes air from a tank.

Discover!

Footprints are on the moon for a million years! There's no wind to blow them away.

LIVEWORKSHEETS

7 On the Moon

Read pages 16–17.

1 Write the words.

hole breathe rock
dust wind mountains

1 _____

2 _____

3 _____

4 _____

5 _____

6 _____

2 Match. Then write the sentences.

Astronauts can go to	space suits.
Astronauts have	from a tank.
Astronauts breathe air	the moon.

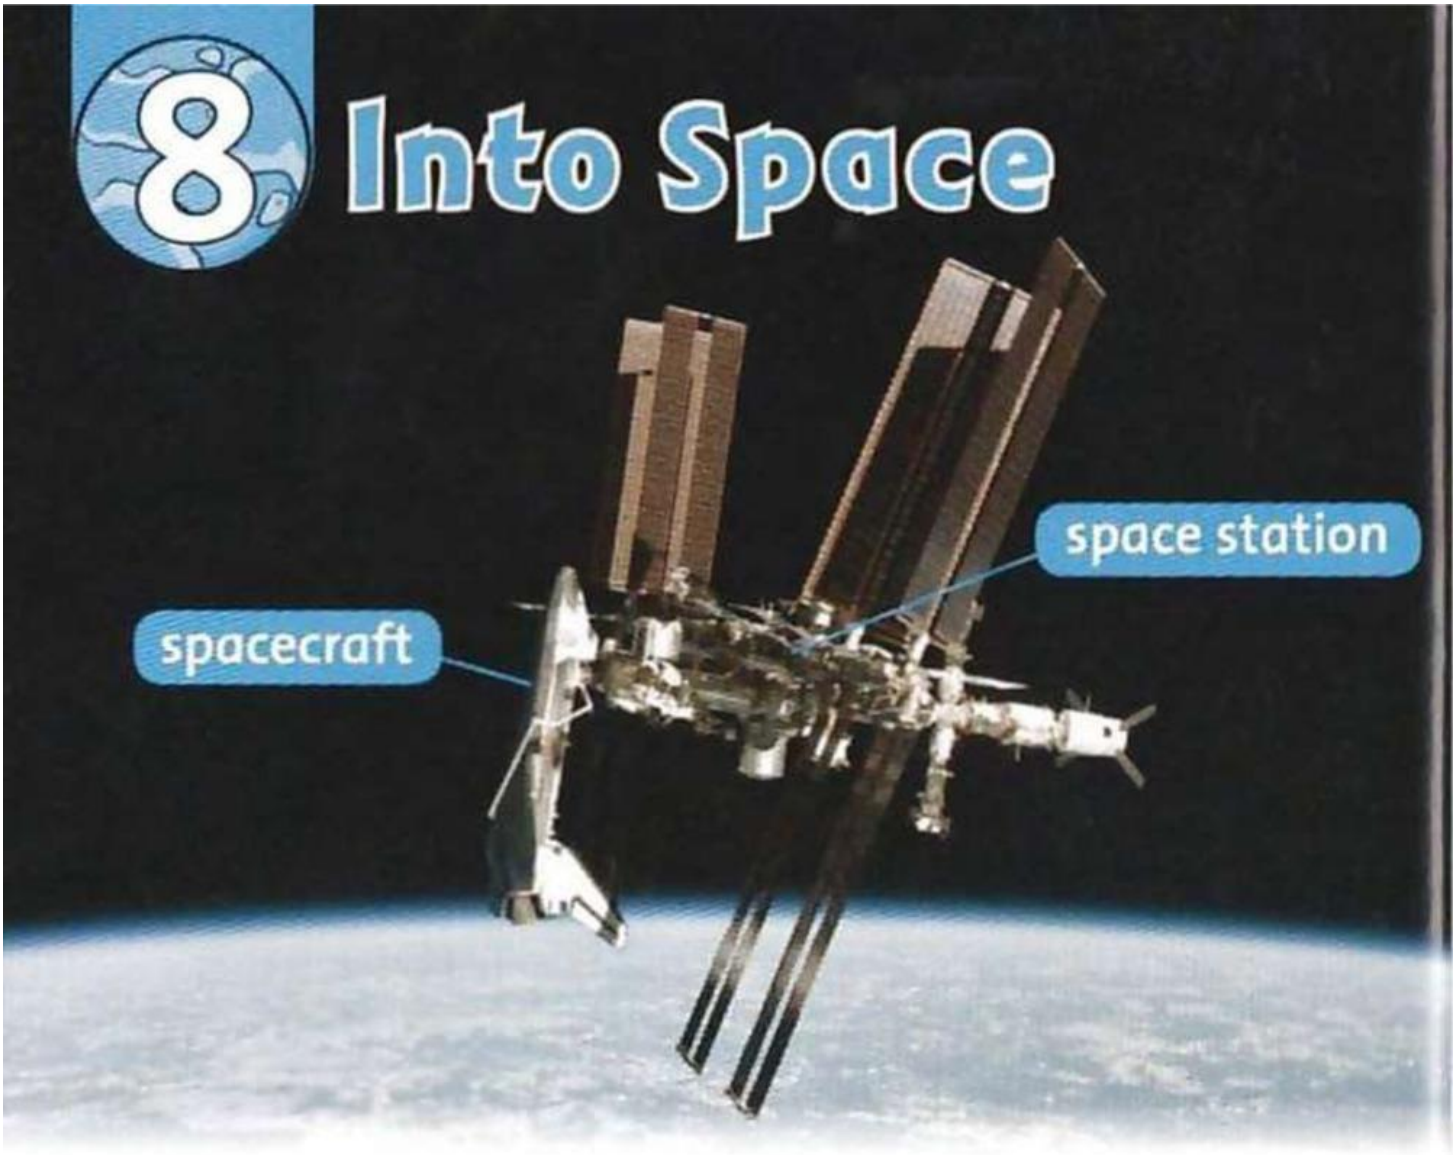

1 Astronauts can go to the moon.

2 _____

3 _____

LIVEWORKSHEETS

8 Into Space

Astronauts go into space. They go in a spacecraft.

Astronauts

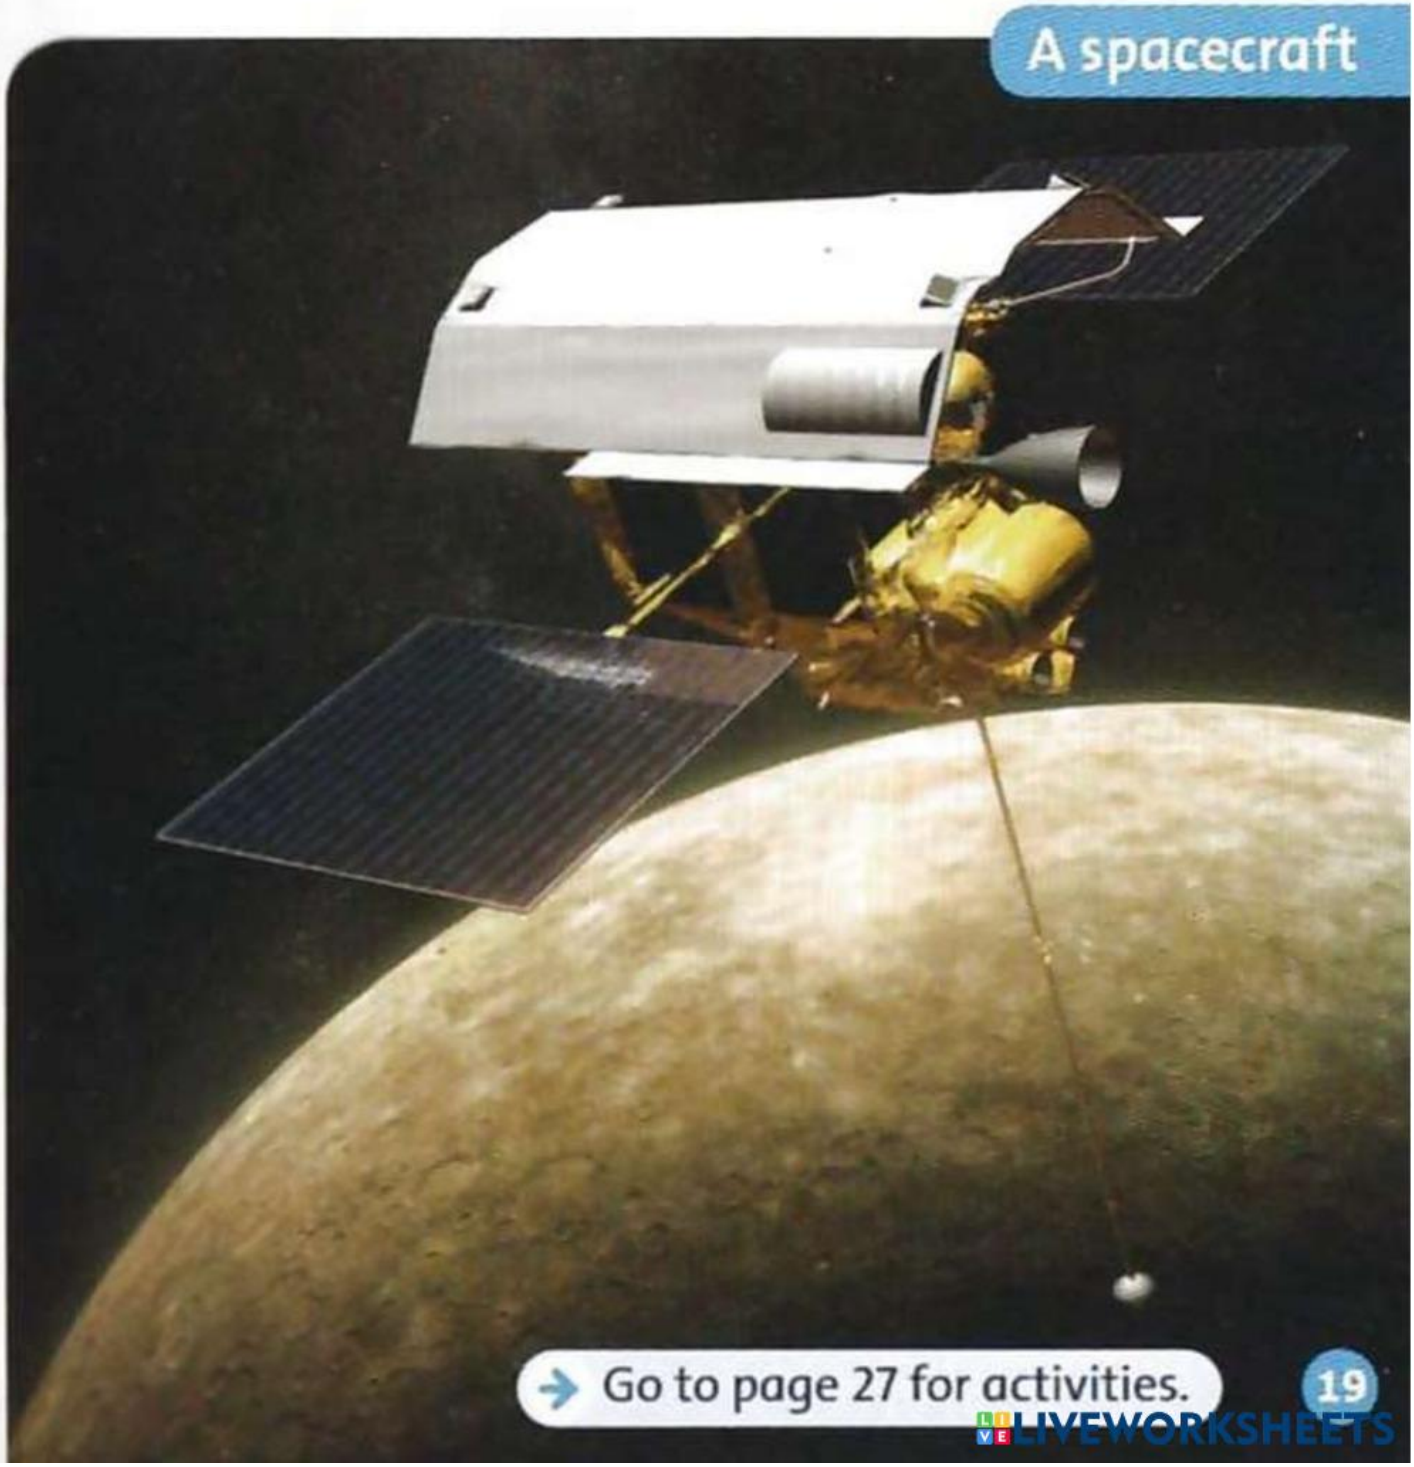

Astronauts can live in space. They live in a space station. They look at Earth and learn about it.

LIVEWORKSHEETS

Spacecraft with no people in them go into space, too. Some spacecraft take photos of Earth and space. Some spacecraft go to other planets so we can learn about them.

Maybe one day you can go into space, too!

A spacecraft

→ Go to page 27 for activities.

LIVEWORKSHEETS

8 Into Space

Read pages 18–19.

1 Complete the sentences.

photos planets
station space

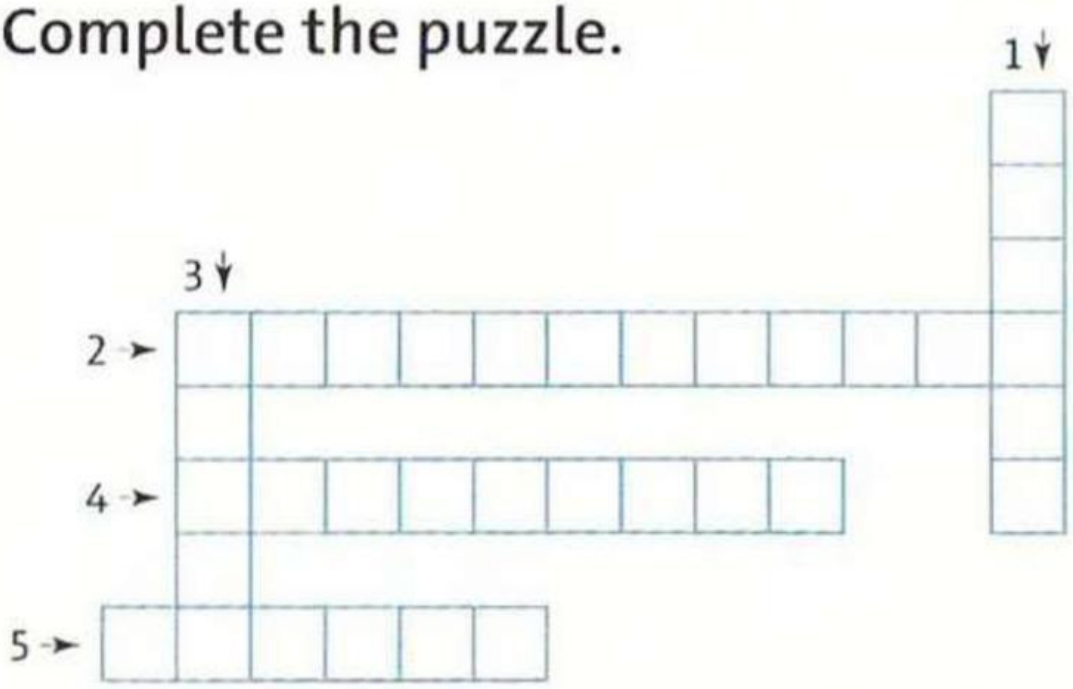

1 Astronauts go into _____ in a spacecraft.

2 Some spacecraft take _____ .

3 Some spacecraft go to other _____ .

4 Astronauts live in a space _____ .

2 Complete the puzzle.

1 2 3 4 5
