"Tell us about one or two places that you like in your neighborhood. Explain why you like them."

The Bakery and the Library

In my neighborhood, I like two places very much. The first place is the bakery. It smells wonderful with fresh bread and pastries. I go there with my family every weekend. We buy our favorite treats and enjoy them together. The bakery staff are friendly and always greet us with a smile.

The second place I like is the library. It is small but cozy. The librarian is very kind and helps me find good books. I go there to do my homework and read stories. The library has a special corner with soft chairs and pillows. It is my favorite spot to relax and enjoy a good book.

These places are special to me because they bring joy and fun. They make my neighborhood a happy place to live.
