Studying and Travelling

I have many plans for future. First, I want to go to college. I study hard now because I want to learn more in the future. College is important because it helps me get a good job. I also want to meet new people and make friends there. After college, I want to find a job that I enjoy. I want to work in a field that makes me happy and helps me grow. Having a good job is important because it helps me take care of myself and my family.

I also plan to travel and see new places. Traveling is exciting, and I want to learn about other cultures. My plans are important because they help me have a better future. I work hard in school now to make these plans happen. I feel happy when I think about my future.
