"Tell us about your plans for future. Explain why these plans are important to you."

Taking a Course

I want to learn a new skill. I plan to take a course in computer programming. I think computers are very important today, and I want to understand how they work. Learning this skill will help me find a good job in the future. I can work in different fields, and I can even work from home. This plan is important because it gives me more opportunities. I want to do something that I enjoy and that helps me grow. Learning new skills makes me feel confident, and I believe it will help me have a successful future.
