

Complete the following paragraph with the appropriate words or phrases from the list below ) One word is extra.

**(global warming, poaching, habitat destruction, soil degradation, drought, extinction , deforestation, earthquake )**

Climate change is a significant issue impacting the environment in various ways. One major factor contributing to climate change is \_\_\_\_\_, which leads to increased temperatures and changes in weather patterns. This, in turn, causes problems like \_\_\_\_\_, which reduces the availability of water for both plants and animals. Additionally, \_\_\_\_\_ can cause the loss of vital habitats, resulting in the \_\_\_\_\_ of many species. Activiyy such as \_\_\_\_\_ further exacerbate the problem by reducing biodiversity. Moreover, \_\_\_\_\_ regular \_\_\_\_\_ can effect to the soil quality, leading to \_\_\_\_\_ and decreased agricultural productivity.
