Left Brained or Right Brained?

Tom	Sara
 <p>"I have a left-brained personality. I'm really good at solving math problems. I like to analyze things and to think logically. I like working alone, too. I enjoy writing, but I'm not good at being creative. I'm very organized, so I like listening and taking notes in class. I usually remember the details when I read. As I study, I write things down and make lists. It helps me remember."</p>	 <p>"Honestly, I'm the opposite of Tom. I'm definitely more right-brained than left-brained! So, for example, I'm imaginative and creative. I like making up and telling stories. I love drawing, dancing, and playing music. I enjoy working in groups and solving problems together. Sometimes I talk when I shouldn't in class, and I get distracted when I should be listening. When I study, I draw pictures because it helps me remember."</p>

Choose the person **Tom** or **Sara** based on the reading passage above.

- Grade 9: You're going to have a dance and sell tickets to it. It's going to be in the school gym on Saturday night, May 8. Ms. Richards and Mr. Benson, the soccer coaches, are going to meet you in the cafeteria next Tuesday before lunch to talk more about it.
- Grade 10: You're going to have a cake sale. Mrs. Fenton, the school nurse, is going to meet you this Friday, in the Grade 10 hallway, to give you more information. We're all looking forward to this year's fundraising events. We know they're going to be a big success
