

LISTENING ACTIVITIES

Part 1:

You will listen to several words that are related to technology. As you listen, categorise the words and write them in the mind map given.

Part 2:

Listen to a short text on technology in the classroom. For each question, choose the correct answer A, B, or C.

1. Lessons in the classroom are taught using \_\_\_\_\_.
  - a. Internet service
  - b. Technology
  - c. Textbooks
2. \_\_\_\_\_ are used to teach in the classrooms instead of textbooks.
  - a. tablets
  - b. Telephones
  - c. Headphones
3. Teacher play the role of \_\_\_\_\_ in classrooms when technology is used.
  - a. advisor
  - b. textbook
  - c. headmaster
4. Children find learning through technology is \_\_\_\_\_.
  - a. Motivating
  - b. interesting
  - c. boring
5. Lessons taught using \_\_\_\_\_ make learning more interesting.
  - a. movies
  - b. videos
  - c. cane

Part 3:

Listen to the audio and fill in the blank with correct answer.

A robot is basically a machine that has been designed and \_\_\_\_\_ (1) by humans to do a certain \_\_\_\_\_ (2) or task. Robots have been \_\_\_\_\_ (3) to make the lives of people \_\_\_\_\_ (4). There are several types of robots. Some robots function in the \_\_\_\_\_ (5) field while some function to provide \_\_\_\_\_ (6) and \_\_\_\_\_ (7) people in their everyday lives. An industrial robot can be found in giant \_\_\_\_\_ (8) where each robot will come together to form a complete system. Robots work together in a \_\_\_\_\_ (9) through programming via electronics and careful planning to \_\_\_\_\_ (10) a consistent product. By using robots, companies can \_\_\_\_\_ (11) their chances of human errors and reduce the running cost of hiring additional \_\_\_\_\_ (12). Numerous robots have been designed and built to perform tasks that humans are not capable of doing. With the advancement in \_\_\_\_\_ (13) companies are able to produce new humanoid robots that can mimic the way of humans and learn certain \_\_\_\_\_ (14) patterns. This impressive feat may not be significant, but it offers an exciting glimpse into the \_\_\_\_\_ (15) where robots will surely play a larger role in our everyday lives.
