

KONVERSI SUHU

Perhatikan empat termometer berikut ini!

Berdasarkan gambar tersebut,
isilah kotak merah dengan jawaban yang tepat!

Termometer	C	:	R	:	F	:	K
Jumlah skala (Ta -Tb)		:		:		:	
Perbandingan		:		:		:	

	Celcius	Fahrenheit	Reamur	Kelvin
Celcius		$C = \frac{5}{9}(F - 32)$	$C = \frac{5}{4} R$	$C = K - 273$
Fahrenheit	$F = \frac{9}{5} C + 32$		$F = \frac{9}{4} R + 32$	$F = \frac{9}{5} (K - 273) + 32$
Reamur	$R = \frac{4}{5} C$	$R = \frac{4}{9} (F - 32)$		$R = \frac{4}{5} (K - 273)$
Kelvin	$K = C + 273$	$K = \frac{4}{9} (F - 32) + 273$	$K = \frac{5}{4} R + 273$
