## THE ENVIRONMENT – LESSON 4 STORY 2

### The Small Tree

- 1 Carla lived in an apartment. She loved gardening, but she didn't have a garden. Last month, she sowed an apple seed in a pot, and it grew into a small apple tree! But where could she plant it?

- 2 One Saturday, Carla and her dad went to the library. After, they saw a small garden between the library and the museum. Some children were happily working there. "Look!" said Carla excitedly. "They've just made an insect hotel." "Let's say 'hi!'" said her dad. Carla was too shy, so they walked home.

- 3 The next Saturday, Carla and her dad went to the library again. "Let's visit the garden," said Dad. At the garden, the children were working hard. "What are you doing?" asked Carla's dad. "People throw away wood," said a boy, "but we can reuse it. We've already repaired the gate, and made a bird box."

- 4 "We want to plant trees, but we don't have any yet," said a girl. "We can plant my apple tree." Carla said quietly. "Thank you for sharing," said the girl. They planted the tree together. "It's good to be brave," she thought, "and I have new friends, too."
