

Complete the following Venn Diagram.  
Read, drag and drop to the corresponding place.

Not very  
eco-friendly

Have  
specific  
costs and  
benefits

Reduces  
environmental  
pollution

Found in  
nature

Sources  
that  
cannot be  
replaced

Sustainable  
practice

Releases  
pollutants and  
carbon dioxide  
when burned

Sources  
that can  
be  
replaced

Renewable Energy Resources

Nonrenewable Energy Resources
