

Beating the traffic

Do you think flying cars would be a good solution for traffic problems in cities? Why or why not?

LISTENING 1

Transportation for the future

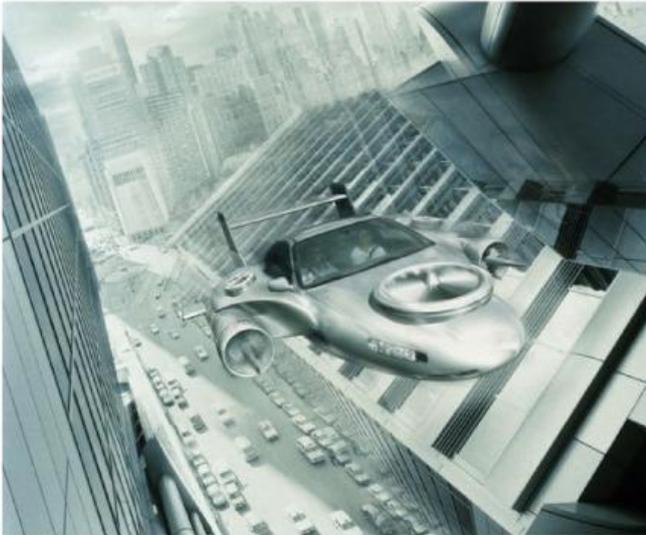

Listen to the interview, then answer the questions.

- 1 What is Teresa working on?
- 2 Why is Teresa's project better than a traditional ambulance?

REFLECT

People argue that underground tunnels are a better solution for traffic problems. Which would you prefer to see in your city?

Flying cars

Underground tunnels

LISTENING 2

Flying cars or underground tunnels?

Now listen to another interview with transportation experts about the future. Check (✓) the points they mention.

Flying cars:

- 1 They will replace all regular cars.
- 2 They will be used for emergencies and taxis.
- 3 They will cause more air and noise pollution.

Underground tunnels:

- 4 The technology to build them already exists.
- 5 The cost of building them is very high.
- 6 They are better for the environment.
