

Oceanography Assignment  
3/12/2021

1. Label the parts of the ocean floor.

Continental shelf

Continental slope

Continental rise

Abyssal Plain

5-8.. As the depth of the ocean water \_\_\_\_\_, the temperature \_\_\_\_\_, the pressure \_\_\_\_\_, and the amount of light \_\_\_\_\_.

8-18. Match the words to their definitions:

9. _____ the underwater edge of a continent	a. current
10. _____ a body of water moving very quickly in a definite direction through surrounding waters that are moving quickly	b. sediment
11. _____ very wide, very flat sections of the deep ocean floor, made of thick layers of sediment	c. phytoplankton
12. _____ sand, mud, rocks	d. continental shelf
13. _____ plant-like plankton that live near the surface of the ocean	e. zooplankton
14. _____ animal-like plankton found near the surface of the ocean	f. abyssal plain
15. _____ the area at the bottom of the continental slope. It is a vast underwater hill made from tons of accumulated sediment	g. salinity
16. _____ the amount of salt found in the ocean's water	h. continental rise
17. _____ the amount of mass packed into a contained space	i. density
