TEXT 1

Hey! I'm Emma, and I'm 22. I'm a student, currently studying psychology at university. I've always been curious about how people think and why they act the way they do, so it's been pretty interesting so far.

When I'm not busy with classes or assignments, I love hanging out with friends, binge-watching shows, or hitting the gym. I'm also really into traveling and hope to check out a few new countries soon. After I graduate, I'd like to become a counselor and help people with their mental health. I'm excited to see what the future holds!

*I'm also excited about learning new languages, especially for traveling. I think it's not only useful but also fun and opens up opportunities to meet new people.

TEXT 2

Hello, everyone! I'm Michael, and I'm 35 years old. I work as a software engineer at a tech company. I've been in this industry for over 10 years, and I really enjoy creating new programs and solving problems.

In my free time, I like playing video games, going for hikes, and spending time with my family. I have two young children, and they keep me very busy! I also enjoy learning about new technology and keeping up with the latest trends in the tech world. I'm always looking for ways to improve and grow, both professionally and personally.

*Although learning a new language seems challenging, I think it would really help in my career, especially in the tech field where communication across borders is essential.

TEXT 3

Hi, my name is Sarah, and I'm 42 years old. I work as a nurse in a local hospital, and I've been in this profession for about 15 years. I love my job because I get to help people every day, even though it can be stressful at times.

Outside of work, I enjoy cooking, gardening, and spending time with my dog. I also like to volunteer at a local animal shelter when I have the time. I'm passionate about helping others, and I try to stay active in my community. I'm always looking for ways to balance my work and personal life.

*I believe learning a new language would be very beneficial for me, especially in my job. Being able to communicate with patients from different backgrounds would make my work even more rewarding.

TEXT 4

Good morning! My name is Robert, and I'm 59 years old. I'm an accountant and have been working for the same company for 25 years.

I specialize in tax preparation and financial planning. I've always liked working with numbers and helping people manage their finances.

In my free time, I enjoy playing golf, reading historical books, and spending time with my grandchildren. I also love listening to jazz music. As I'm getting closer to retirement, I'm starting to think about how I'll spend my free time—maybe I'll take up painting or travel more. I'm looking forward to this next chapter in my life.

*I'm interested in learning a new language, especially for traveling once I retire. I know it might be more difficult at my age, but I think it would be a fun and rewarding challenge.

WHO DO YOU IDENTIFY MORE WITH? WHY?

WHAT'S YOUR PERSPECTIVE ABOUT LEARNING A NEW LANGUAGE?
