

<p>A. Closer to the epicenter, buildings collapsed, roads and railways were ripped apart and fires blazed.</p>	
<p>B. The evacuation zone around the nuclear power plant was soon increased to 20 km.</p>	
<p>C. Many thousands of people lost their lives and roads, buildings and entire villages were swept away.</p>	
<p>D. Sadly, there were hardly any survivors.</p>	
<p>E. Without power, the cooling system at the Fukushima No. 1 Plant failed.</p>	
<p>F. It washed away houses and cars and hurled ships far inland, carrying them along and slamming them into whatever lay in their path.</p>
