SPEAKING. LIVING GREEN

1/ There are many things that we should or shouldn't do to live green.

We should recycle our used items so that we can protect natural resources. We shouldn't drop litter in the street because this will make the street dirty and pollute the environment.

LIVEWORKSHEETS

2/ ... We should plant more trees because they provide shade and fresh air. We shouldn't leave our appliances on when not in use as this wastes electricity and creates dangerous situations.
