2. What was Maria's favorite animal?

- | | |
|------------|-------------|
| a) Lion | b) Elephant |
| c) Giraffe | d) Panda |

3. What did Maria enjoy watching the panda do?

- | | |
|----------------|-------------------|
| a) Sleep | b) Play with toys |
| c) Climb trees | d) Run around |

เรื่องที่ 2: My Favorite Subject

My name is Tom, and my favorite subject is Science. I love learning about space, animals, and plants. In Science class, we often do experiments to understand how things work. Last week, we learned about the water cycle. We did an experiment to see how water evaporates and becomes clouds. Science is so interesting because it helps me understand the world around me.

4. What is Tom's favorite subject?

- a) Math
- b) English
- c) Science
- d) History

5. What did Tom learn about last week?

- a) Planets
- b) The water cycle
- c) Animals
- d) Plants

6. Why does Tom like Science?

- a) Because it is easy
- b) Because it helps him understand the world
- c) Because he likes his teacher
- d) Because he likes reading

เรื่องที่ 3: The Importance of Water

Water is essential for all living things. Plants, animals, and people need water to survive. People use water for many things like drinking, cooking, and cleaning. In some parts of the world, people do not have enough clean water. It is important to save water and not waste it, so there will be enough for everyone.

7. Why is water important?

- a) It makes food taste better
- b) It helps living things survive
- c) It keeps houses clean
- d) It helps plants grow faster

8. What do people use water for?

- a) Drinking and cooking
- b) Playing and swimming
- c) Traveling
- d) Building houses

9. Why is it important to save water?

- a) To have more water to play with
- b) To help plants grow faster
- c) So there will be enough for everyone
- d) To make houses cleaner

10. What happens in some parts of the world?

- a) People have too much water
- b) People do not have enough clean water
- c) Water is wasted
- d) Water is not needed
