

MAHAKAM PORPOISE

MAHAKAM PORPOISE

This animal is unique because it does not have a snout. Apart from that, the characteristics of the Mahakam Pesut are a straight, upright and rounded body shape, a high forehead, a round head, small eyes, a small and rounded dorsal fin, and a grayish white color.

Match the characteristics to the Mahakam Pesut's body parts.

Characteristics	Body Part
Straight, upright, and rounded	(a) Snout
High forehead	(b) Body shape
Round head	(c) Forehead
Small and rounded dorsal fin	(d) Head
Grayish white color	(e) Dorsal fin
Small eyes	(f) Color
