Landing your **DREAM JOB!**

Have you ever wondered what it could be like to do your dream job? We interviewed two people who found theirs!

I've always been someone who loves interacting with other people and I also have a strong interest in technology. Therefore, I was really motivated to find a job where I could use my communication skills. Fortunately, I found a perfect job, working as a social media manager for a small local company. I've done this job for almost twelve months, and I love it. I get to write interesting online posts and come up with social media strategies to help our company get more attention online. It's home-based, too, which is great because I feel much more creative when I can work from my own space. Of course, I still have tight deadlines to meet, and I need to be flexible, too. Occasionally, I have to go to the office for catch-up meetings to get updates on new project developments, for example, but luckily that doesn't happen very often. All in all, I love my job!

Since I was a child, computers have always fascinated me, and I loved learning about all of the amazing things I could do with them. As I grew up, I started to take more interest in working with computers and using them. I began by making simple quiz apps and programmes for taking notes, and then when I finished high school, I went to university and completed a course in software development. That course helped me develop my technical abilities and problem-solving skills. When I got my degree, I finally found a job as a software developer at an IT company in the capital city, and I couldn't believe my luck. Now, I get to do what I love – something I have been doing for years for free – and get a great salary. What's even more attractive is that since I joined the company, I've had the chance to work on widely-used software with millions of downloads worldwide. It's really been a dream come true!

6. Peter and Jack bought an expensive car yesterday. → _____?

7. Mai and Lan have been sick for 3 days. → Have _____ days?

Read the following paragraph about a man's typical day. Make 5 questions about him.

I usually get up at about 6:00 or 6:30 in the morning, after my alarm clock wakes me up. First, I brush my teeth and shave and wash my face. Then, I get dressed and go downstairs to have breakfast with my family. I always have coffee, cereal, and lots of fruit. I take a bus to work because I don't like to drive, and I always arrive at my office before 8:00. I'm never late for work. Five o'clock is my favorite time of the day because I finish work and go back home and see my wife and children again. I have two boys, Thomas, who is six years old and Patrick, who is eight. We eat dinner together in our dining room at around 6:00, and after that I hang out with my wife and kids at home. We really enjoy watching our favorite TV programs together.
