

LIVING THINGS HAVE...

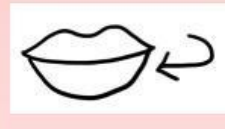

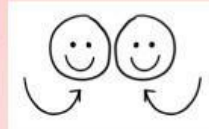

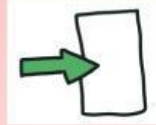

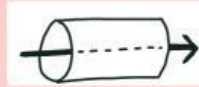

3 VITAL FUNCTIONS

NUTRITION

Through this vital function we eat and drink to get **energy** from **food**

TO

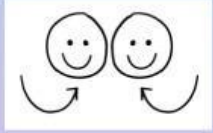

FROM

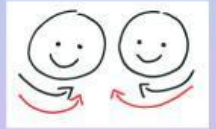

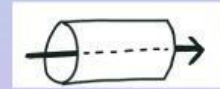

INTERACTION

We get information from the outside through our **senses**, then we move, talk...

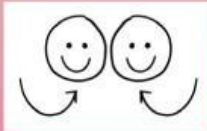

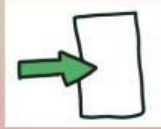

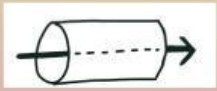

FROM

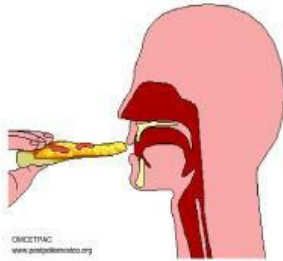

REPRODUCTION

Through this vital function we have
babies.

NUTRITION HAS 4 SYSTEMS

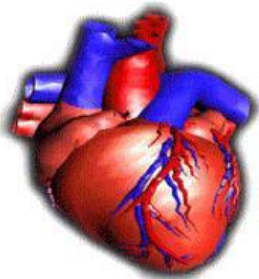

DIGESTIVE SYSTEM

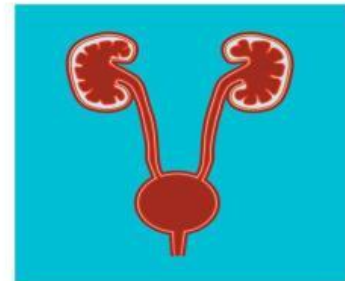

RESPIRATORY SYSTEM

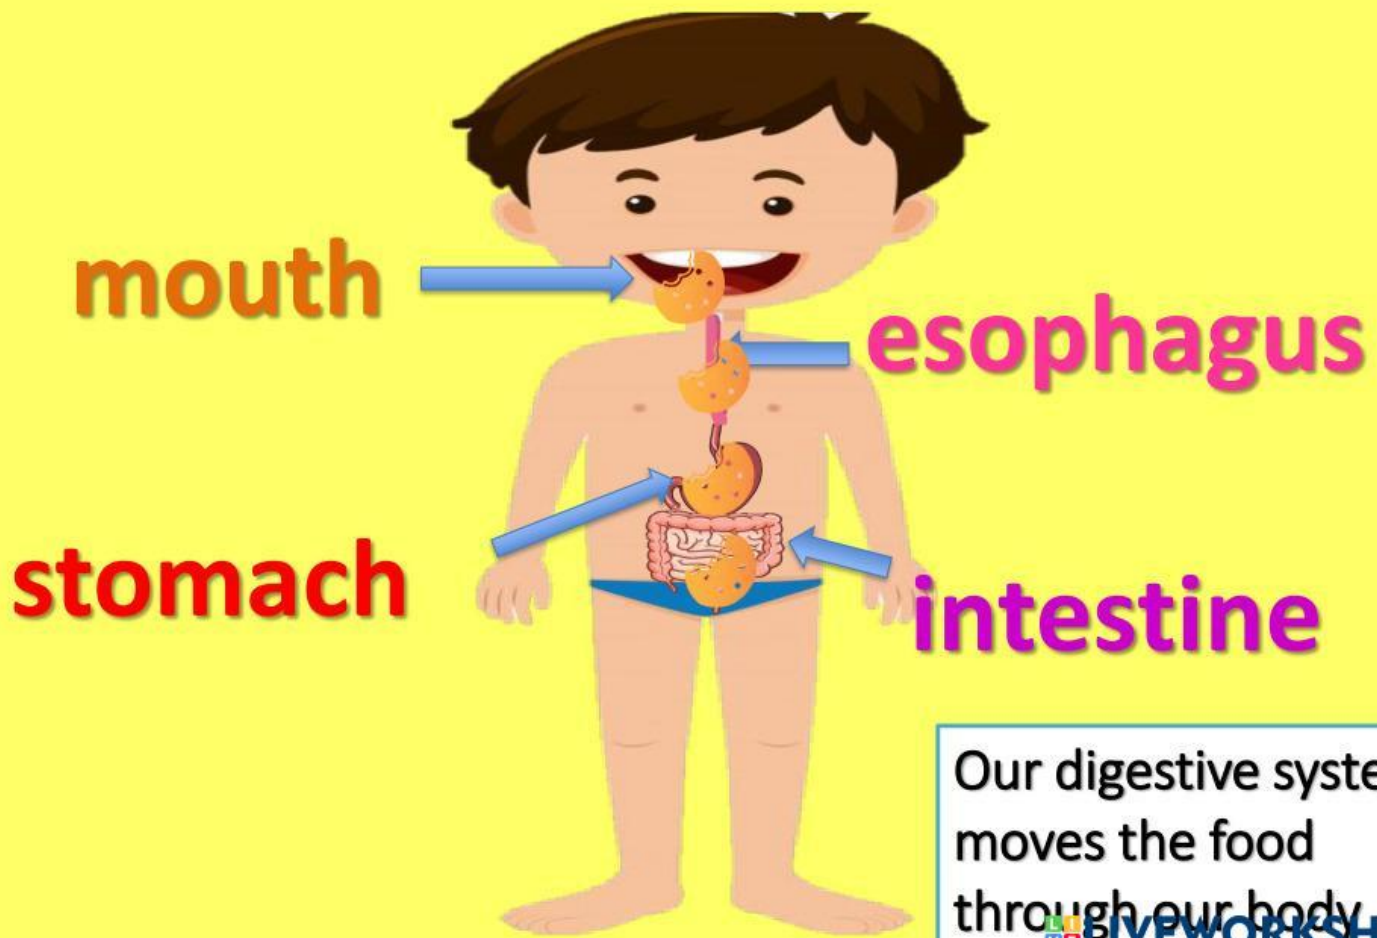

CIRCULATORY SYSTEM

EXCRETORY SYSTEM

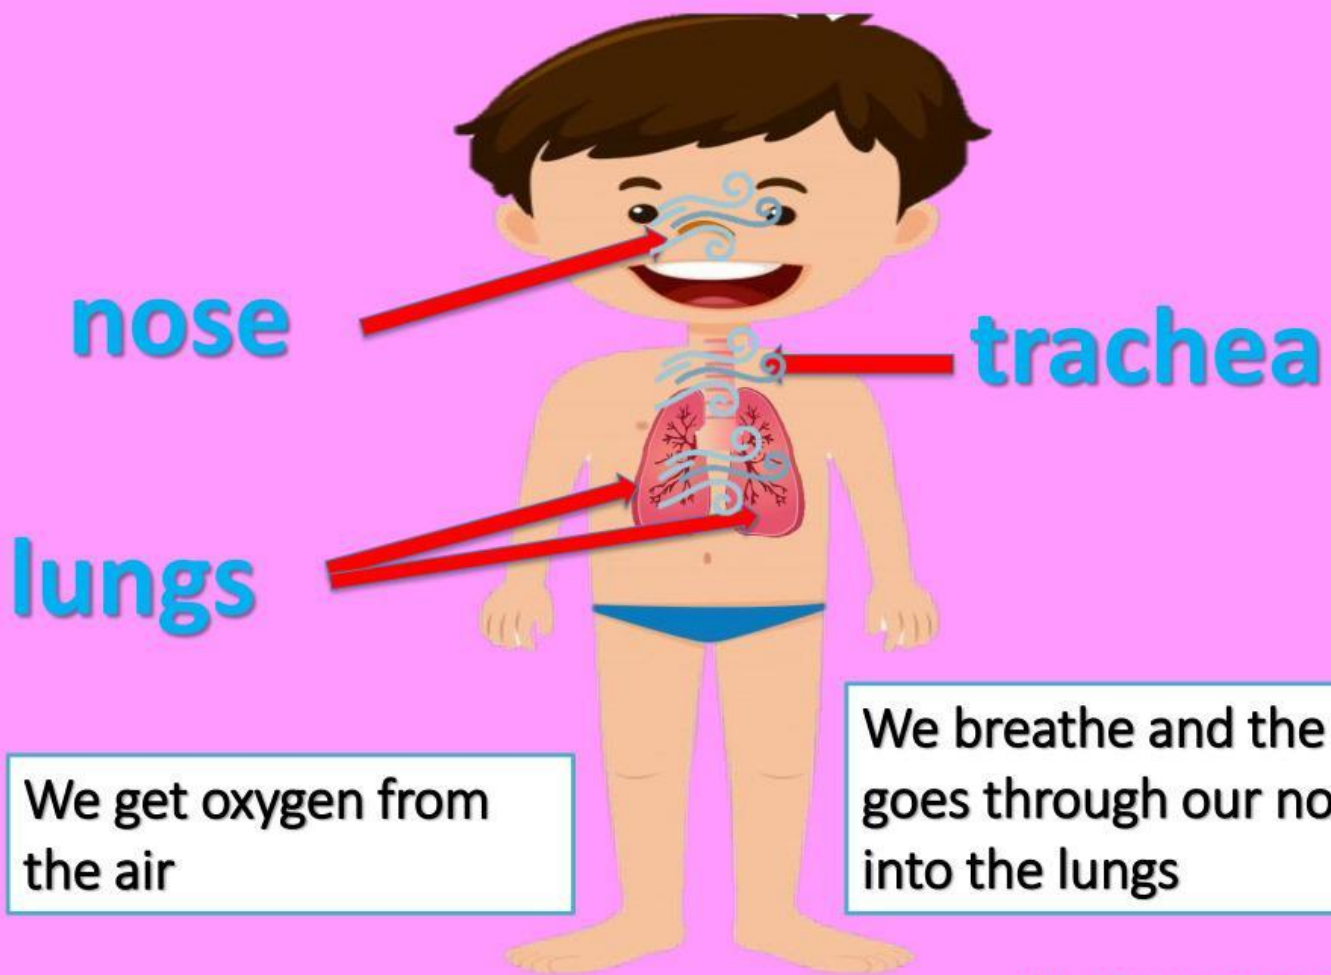

DIGESTIVE SYSTEM

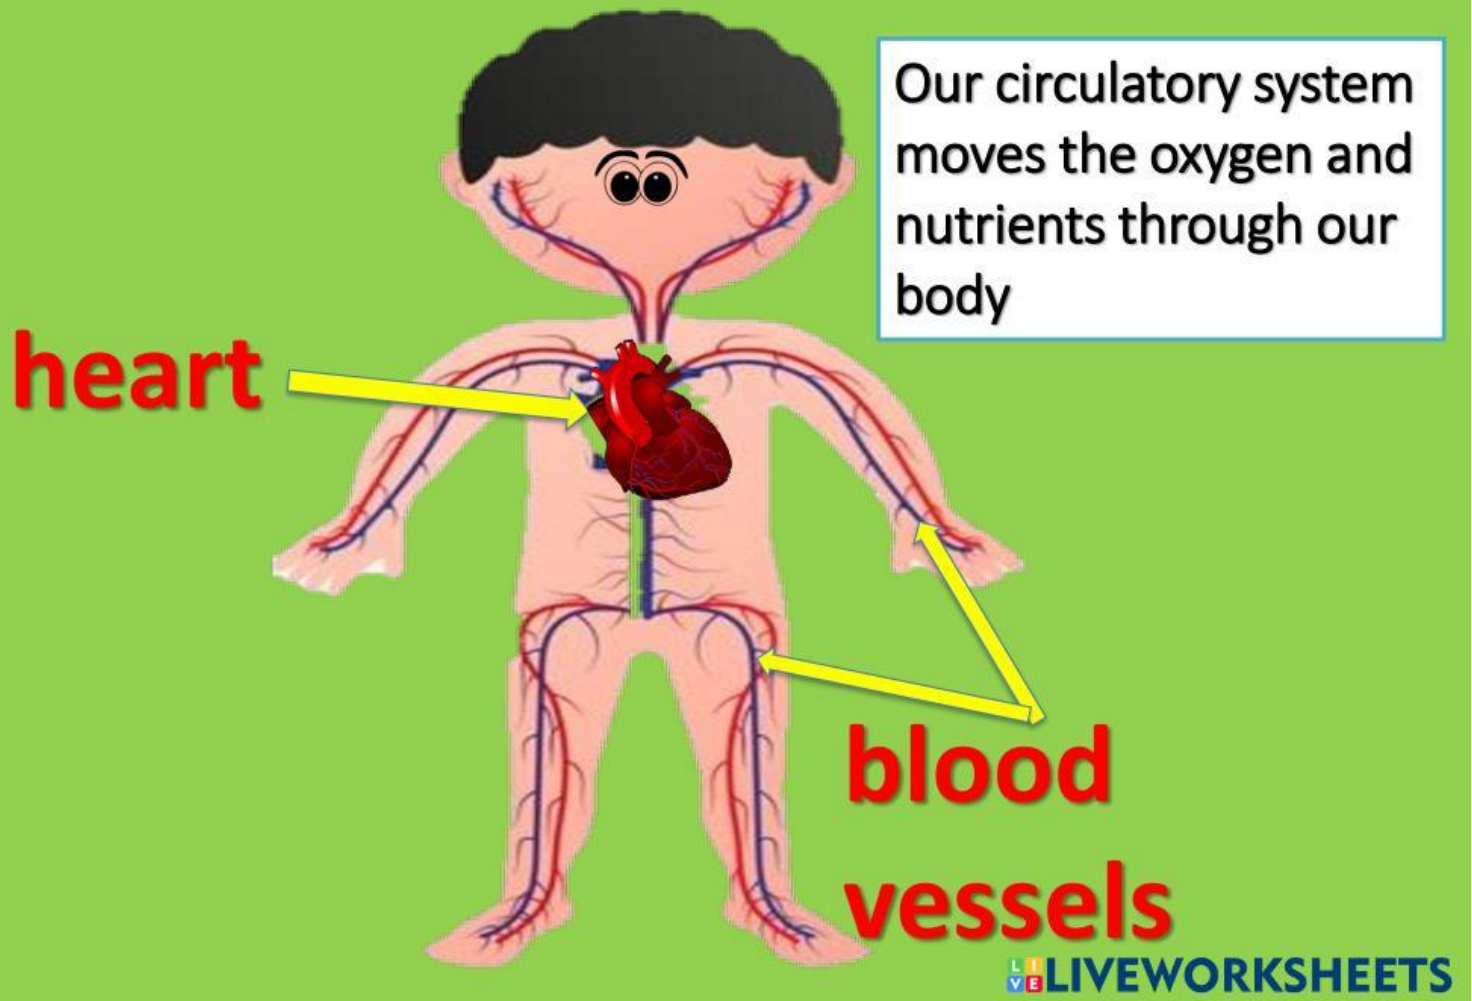

Our digestive system
moves the food
through our body

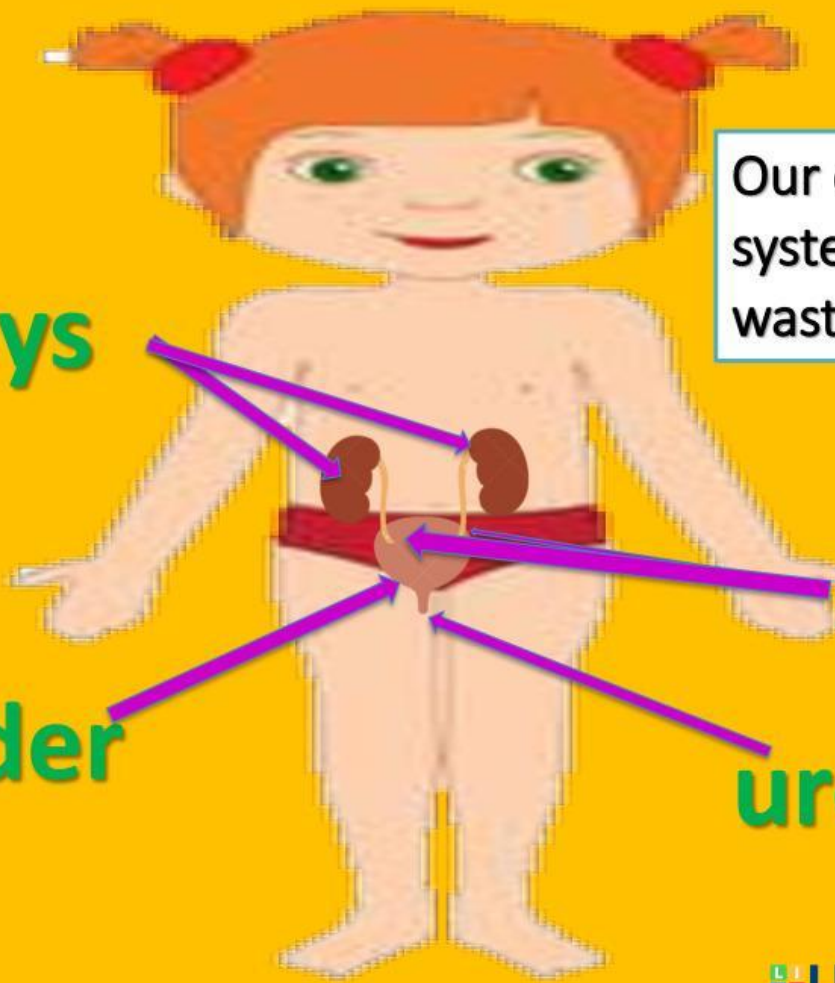

RESPIRATORY SYSTEM

CIRCULATORY SYSTEM

EXCRETORY SYSTEM

Our excretory system eliminates waste products

kidneys

ureters

bladder

urethra
