- 5 Take no _____ of my husband. He thinks his jokes are funny but not everyone agrees!
- 6 Could you take _____ of the children for me on Saturday morning, please?
- 7 The public meeting will take _____ at the town hall on 12th July.
- 8 We should take _____ of the low exchange rates and get some dollars now.

READING

7 Read the article about young motor racing driver Billy Monger. Choose the right answer for each question (a,b,c or d).

Getting back on the track

Motor racing tests the ultimate limits of a driver's safety. Its high speed, the adrenaline-inducing excitement, and real possibility of death certainly aren't for the faint-hearted. Those who do it, do it despite the risks. One of those people is young F4 motor racing driver, Billy Monger. Billy is a survivor whose incredible inner strength and positive attitude is truly inspirational.

In April 2017, just weeks before his eighteenth birthday, Billy was competing in an F4 race. The camera that was attached to his helmet, showed his view of the track. He overtook a car at high speed but suddenly there was another car standing still in the middle of the track in front of him. The resulting crash was horrific. As soon as the medics got to Billy, they realized he was seriously hurt. He was flown to hospital by helicopter with his sister at his side.

When Billy woke up, he discovered that he had suffered serious, life-changing injuries – everything had changed. This terrible news would have completely destroyed most people. However, the hospital staff who looked after Billy praised him for his incredibly positive attitude and good humour. Even ordinary everyday tasks were challenging as he had to re-learn how to do many things, and adapt to life in a wheelchair. But while many people would have given up and become depressed and angry, Billy just became even more determined. He remained positive, telling those around him that all he wanted was to get back in a car and race again.

Billy's best friend, Jamie, was also a racing driver. He invited Billy to his team's headquarters. They had a racing simulator that the team practised on but it was operated by foot pedal. Of course, Billy couldn't do this, so the design team changed the controls so that they could be operated by hand. A few weeks later, Billy was using the simulator and outperforming most of the other drivers. His hero, F1 racing champion Lewis Hamilton, had heard about the accident and visited him to offer support. Billy told him that though it was fun to use the simulator, what he really wanted was to be back on the racing track.

The next step was to develop a car he could race in. While engineers were working on its design, Billy trained hard, building his strength and getting used to a new pair of prosthetic (replacement) legs which would help him walk independently. He began visiting the race track again and received incredible support from the racing community.

Finally, Billy's car was finished. His family were tense and emotional when he got behind the wheel but he was completely focussed. He started it up and roared off into the distance. He had done it. But there was one major problem. Due to safety concerns, the official racing association rules did not allow disabled drivers to race in competitions. Billy wrote to ask for permission to race again, and was invited to a meeting to discuss his situation. Before the meeting, Billy was nervous – unless they changed the rules he couldn't race again. But he needn't have worried; they were so moved by his determination that they agreed to change the rules. Billy would be allowed to race again.

So, less than a year after the accident that should technically have ended his career, Billy was at the starting line again, waiting for the race to start. The cars roared off and everyone held their breath. It was a tough race but Billy was as focussed and committed as ever, coming in over the finish line in third position. His smile said it all – Billy Monger was back!

What was Billy Monger doing when he had his accident?

- a) Training with a simulator
- b) Testing a new car design
- c) Competing in an F1 race
- d) Racing in an F4 competition

How did the medics respond when they arrived at the scene of Billy's crash?

- a) They realized Billy had only minor injuries.
- b) They took him to the hospital by ambulance.

- c) They realized Billy was seriously hurt and flew him to the hospital.
- d) They treated him at the racetrack.

What was Billy's attitude after waking up in the hospital?

- a) He became angry and depressed.
- b) He was upset but determined to move on.
- c) He remained positive and wanted to race again.
- d) He decided to give up racing and focus on recovery.

How did Billy's best friend, Jamie, help him after the accident?

- a) Jamie designed a new car for Billy.
- b) Jamie invited him to use a racing simulator.
- c) Jamie taught him how to walk with prosthetic legs.
- d) Jamie introduced him to F1 champion Lewis Hamilton.

What major challenge did Billy face after his car was specially adapted for him?

- a) He struggled with learning to use the new controls.
- b) The official racing association's rules didn't allow disabled drivers to race.
- c) His prosthetic legs prevented him from driving efficiently.
- d) His family didn't want him to return to racing.

How did the racing community respond to Billy's desire to race again?

- a) They helped design a car he could drive.
- b) They encouraged him to retire from racing.
- c) They discouraged him due to safety concerns.
- d) They offered financial support for his medical care.

What was the outcome of Billy's first race after returning to the track?

- a) He came in first place.
- b) He finished last due to the new controls.
- c) He finished in third place.
- d) He was unable to complete the race.

LISTENING

8 Listen to five people talking about environmental concerns. Complete the sentences with one or two words.

1 Speaker 1 used to buy clothes _____ and if he didn't like them, he returned them and got a _____.

Now he only buys clothes from brands that use _____.
