a. ride b. route c. scene

B

Circle the correct answers.

Getting Used To the Time

If you have flown to a country east or west of Israel, you probably had to ¹ **update** / **develop** the time on your watch when you got there. This difference in time often causes ² **customs** / **travelers** to experience a common sleep problem, known as jet lag (יעצת, ג'ט לג / اضطراب الرحلات الجوية الطويلة). It affects people who travel long distances and ³ **adopt** / **pass through** several different countries.

Usually, it takes a few days to get used to the time difference, ⁴ **nowhere** / **though** it may take some people even longer. People with jet lag often ⁵ **complain** / **appreciate** that they feel tired during the day. They may stay up late or go to sleep much earlier than usual. Sometimes, they wake up at ⁶ **convenient** / **odd** hours during the night and can't get back to sleep. Jet lag may even cause stomachaches or ⁷ **headaches** / **excuses**.

If jet lag tends to ⁸ **delay** / **bother** you when you travel, try to relax the first day or two so that you can enjoy the rest of your trip!
