Emptiness machine

album: from zero

year: 2024

Your blades are sharpened with ___
Flashing your favorite point of view (point of view)
know you're waiting in the distance (distance)
Just like you always do, just like you always do

Already pulling me in
Already __
And know exactly how this ends, I

Let you cut me ___
just to watch me bleed
Gave up who am for who you wanted me to be
Don't know why I'm __ for what I won't receive
Falling for the promise of the emptiness machine
The emptiness machine

Going around like a revolver (like a revolver) It's been decided how we lose (how we lose)
'Cause there's a fire under the altar (the altar) keep on lying to, keep on lying to
