

1

$$(x + 5)^2$$

$$(\square)^{\square} + \square (\square) (\square) + (\square)^{\square}$$

$$\square + \square + \square$$

2

$$(11 - a)^2$$

$$(\square)^{\square} - \square (\square) (\square) + (\square)^{\square}$$

$$\square - \square + \square$$

3

$$(2x + 7y)^2$$

$$(\square)^{\square} + \square (\square) (\square) + (\square)^{\square}$$

$$\square + \square + \square$$
