

$$\square - 7 = 6$$

$$-$$

$$\square + \square = \square \quad 19$$

$$= \square \div \square - \square$$

$$6 \quad \square - 3 = \square \quad 2$$

$$\div \square = \square = \square +$$

$$\square + 12 = \square$$

$$= \square = \square$$

$$14 \div 2 = \square$$

$$5 + 23 = \square$$
