Trip to Raja Ampat

Last summer, I visited Raja Ampat, an archipelago in West Papua, Indonesia, known for its unspoiled beaches and vibrant ocean life. The journey started with a flight to Sorong and a two-hour speedboat ride, revealing breathtaking views of turquoise waters and lush islands. Upon arrival, we stayed at an eco-resort and spent the first day exploring the beautiful beaches.

Excited for adventure, I decided to go surfing the next morning. The waves were perfect, offering an exhilarating experience. However, while riding a wave, I suddenly felt a sharp, burning pain in my leg - I had been stung by a jellyfish. The pain was intense and I freaked out, but the resort staff quickly helped, applying vinegar and offering comfort.

The rest of the trip was more relaxed. We visited local villages, interacted with the indigenous people, and learned about their traditions and sustainable practices. Despite the jellyfish sting, the beauty and wonder of Raja Ampat left a lasting impression, making the trip an unforgettable adventure.
