When you **do** your best, but you **don't**  
succeed

When you get what you want, but not what  
you **seek**.

When you **are** so tired, but you can't **sleep**  
Stuck on **reverberance**

And the tears come streaming **on** your face

When you **lost** something you **can't** replace

When you love **somebody**, but it goes to  
waste

Could it **feel** worse?

**Maps** will guide you **home**

And ignite your **love**

And I will try to fix **us**
