MATERI 1

BANGUN RUANG

VOLUME & LUAS PERMUKAAN

Bangun ruang adalah bangun tiga dimensi yang mempunyai volume atau isi. Volume tersebut dapat diketahui dengan rumus bangun ruang sesuai jenisnya.

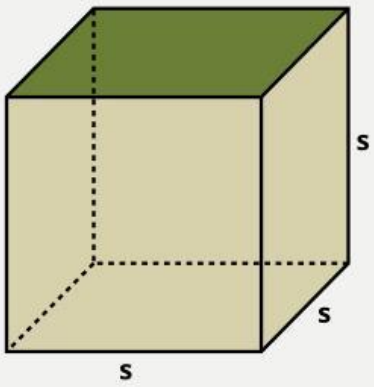
LIVEWORKSHEETS

MACAM-MACAM BANGUN RUANG

Kubus, Balok, Tabung,
Kerucut, Prisma, Limas, Bola

LIVEWORKSHEETS

KUBUS



RUMUS

Volume Kubus :

$V = s \times s \times s$

Luas Permukaan Kubus :

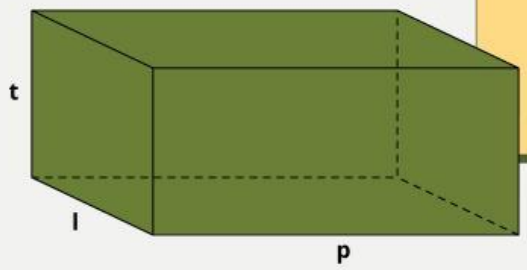
$L = 6 \times s \times s$

Catatan :

- V = Volume
- L = Luas permukaan
- s = sisi

LIVEWORKSHEETS

BALOK



RUMUS

Volume Balok :

$V = p \times l \times t$

Luas Permukaan Balok:

$L = (2 \times p \times l) + (2 \times p \times t) + (2 \times l \times t)$

Catatan :
V = Volume
L = Luas permukaan
p = panjang
l = lebar
t = tinggi

LIVEWORKSHEETS

TABUNG

RUMUS

Volume Tabung :

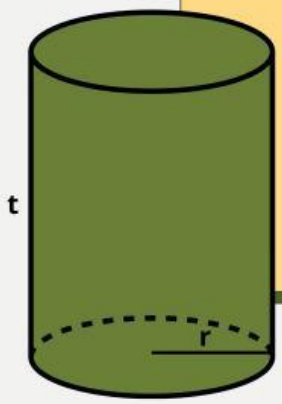
V = Luas Alas x Tinggi
V = π × r × r × t

Luas tabung = Luas alas + Luas tutup + Luas selimut tabung

Luas alas = π × r²

Luas tutup = π × r²

Luas selimut tabung = 2 × π × r × t



Catatan :
V = Volume
π = 22/7 atau 3,14
r = jari-jari
t = tinggi

LIVEWORKSHEETS

KERUCUT

RUMUS

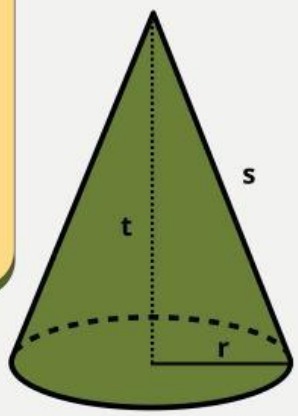
Volume Kerucut :

$$V = \frac{1}{3} \times \pi \times r^2 \times t$$

Luas Kerucut = luas selimut kerucut + luas alas kerucut

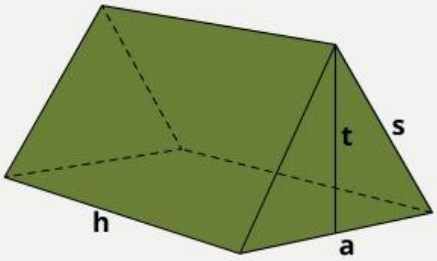
$$L = (\pi \times r \times s) + (\pi \times r^2)$$

Catatan :
- V = Volume
- π = 22/7 atau 3,14
- r = jari-jari
- t = tinggi
- s = garis pelukis kerucut



LIVEWORKSHEETS

PRISMA SEGITIGA



RUMUS

Volume Prisma Segitiga :

V = (½ x alas segitiga x tinggi segitiga) x tinggi prisma

V = (½ x a x t) x h

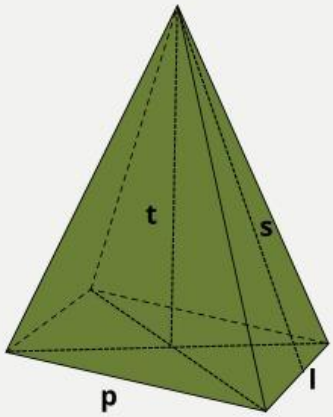
Luas Permukaan Prisma :

L = 2 × (1/2 × a × t) + keliling segitiga × tinggi

Catatan :
V = Volume
L = Luas permukaan
a = alas
t = tinggi segitiga
s = sisi miring
h = tinggi prisma

LIVEWORKSHEETS

LIMAS



RUMUS

Volume Limas :

V = 1/3 x luas alas x tinggi

V = 1/3 x p x l x t

Luas Permukaan Limas :

L = Luas Alas + (Jumlah Sisi x Luas Sisi)

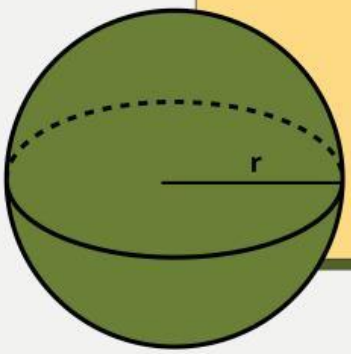
L = p x l + (4 x 1/2 x l x s)

Catatan :
- V = Volume
- L = Luas permukaan
- p = panjang
- l = lebar
- t = tinggi
- s = tinggi segitiga

LIVEWORKSHEETS

BOLA

RUMUS



Volume Bola :

$V = 4/3 \times \pi \times r^3$

Luas Permukaan Bola

4 x Luas Lingkaran ($\pi \times r^2$) atau $S = 4 \times \pi \times r^2$

Catatan :
V = Volume
π = 22/7 atau 3,14
r = jari-jari
