### TAJ MAHAL

The Taj Mahal is in Agra, India. It is about 200 kilometers north of Delhi, the capital. It is one of the most famous buildings in the world. It was built by Shah Jahan, one of the great Moghul emperors, in memory of his beautiful wife, Mumtaz Mahal, who died in 1631 AD. Shah Jahan loved his wife very much but she died when she was giving birth to her first child. The emperor was heart-broken and he decided to build a tomb for her so that people would always remember her name.

The building work began in 1631 and was finished 20 years later. More than 20,000 workers and craftsmen helped to build the Taj Mahal which is made of white marble. It is surrounded by beautiful gardens.
