

## Measuring and Comparing the Weight of Objects

Look at the objects balanced below and answer the questions.

How many balls does the alien weigh?

How many balls does the worm weigh?

How many balls does the cake weigh?

How many balls does the baby weigh?

Which object is the lightest? \_\_\_\_\_

Which object is the heaviest? \_\_\_\_\_

Between the baby and the worm - which one is heavier? \_\_\_\_\_

Between the alien and the cake - which one is lighter? \_\_\_\_\_
