8. If you (ask) me, I (help) you.
9. If we (go) to the cinema,
we (see) my friend Jacob.
10. If you (speak) English, she (understand)
..... .

**Task 3: Read the text and choose correct answer.****NIGHT SHIFT**

Many people have jobs that are not very interesting, but a lot of people have to work at night, and this is very difficult. When everybody else is getting ready to go out, they have to go to work, and this puts a lot of psychological stress on them. It is also not very healthy because the human body is designed to be active in the day and to rest in the dark. If this cycle is reversed it can have a bad effect on a person's health. So, why do people do night shift.

Nowadays many business have to offer a 24 hour service, like hotels, delivery companies, some supermarkets open all night and all day, call centres and hospitals. It is true that some people only need a few hours sleep at night but the majority need eight hours. Humans are most active in the middle of the day, and the time when they are least able to concentrate and be efficient is between 2am and 4 am. This is the worst time to drive, or to do anything that needs concentration. The body finds it very difficult to adapt to the opposite cycle. Things are not likely to get better in the future because more and more business are working 24 hour cycles to keep in step with our 24 hour society.

***Questions:**

1 - What is the writer's main aim in writing the text?

Possible answers:

- ☐ (A) To describe the importance of work.
