### Decisions, decisions!

For many young people, the question 'what are you going to do when you leave school?' can be a difficult one to answer. Some students have no idea whether to try to **1 apply/go on/get** a part-time job to earn some money, **2 make/choose/apply** for a course to learn a practical skill or try to go to university to get **3 a career/degree/study** to help them get a better job. If this sounds like you, probably the best thing you can do is go and see an expert to get some careers **4 advice/help/details**. They might give you other ideas such as studying **5 outside/abroad/away**. Taking a course in another country could improve your language skills and give you the chance to meet new people and **6 make/do/see** new friends. Whatever you decide, don't worry! Life is a learning experience for everyone and there are no bad decisions.

Choose the correct option.
