

Name: _____ Date: _____ Grade: _____

Subject: Art and Design

Topic: Art Tools and Materials

Part 2

Note : **Art tools** refer to items that make working with art materials easier.

Art materials will refer to substances that can be used to create the final work of Art.

To illustrate if you were asked to paint a picture in your art class would you turn in your **paint brushes** or your **painting** to be graded? No doubt you would turn in your **painting** because the **paint (material)** you used became a part of your **final work of Art**. You would likely clean your **paint brushes** and return them to their proper place. The **paint brush** was merely the **tool** you used to **apply paint to your final work of Art**.

Instructions: Write the name of the art material on the blanks provided. You may use your written notes to help you answer each.
