

UNIT 1 NATURAL SCIENCE 5° GRADE

1. What are the THREE BASIC LIFE PROCESSES of all living things? nutrition, reproduction and _____

Resp. _____

5.

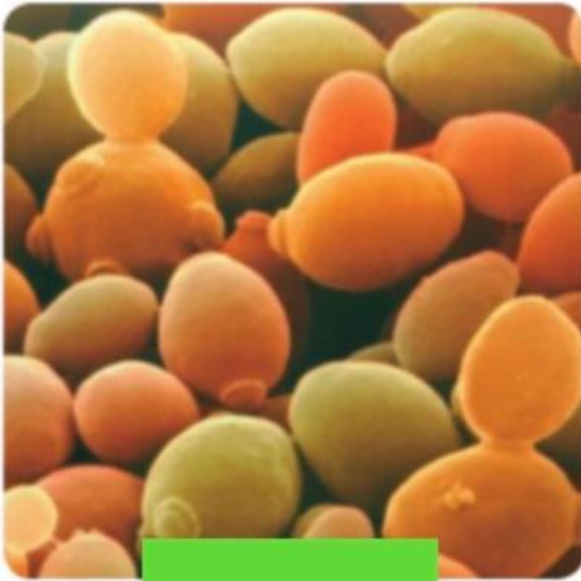

These specialised cells are _____ and neuron.

Resp. _____

12. Which is NOT one of the three different types of unicellular organisms?

- | | |
|-------------|-------------|
| a) amoeba | b) protozoa |
| c) bacteria | d) yeasts |

16.

What type of unicellular organism is?

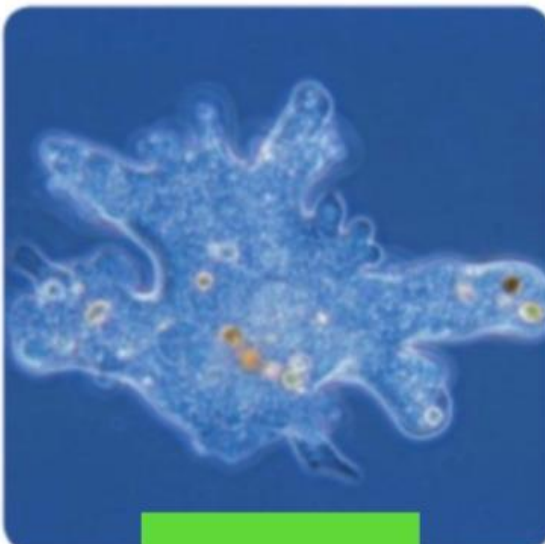

a) amoeba

b) bacteria

c) protozoa

d) yeasts

17.

What type of unicellular organism is?

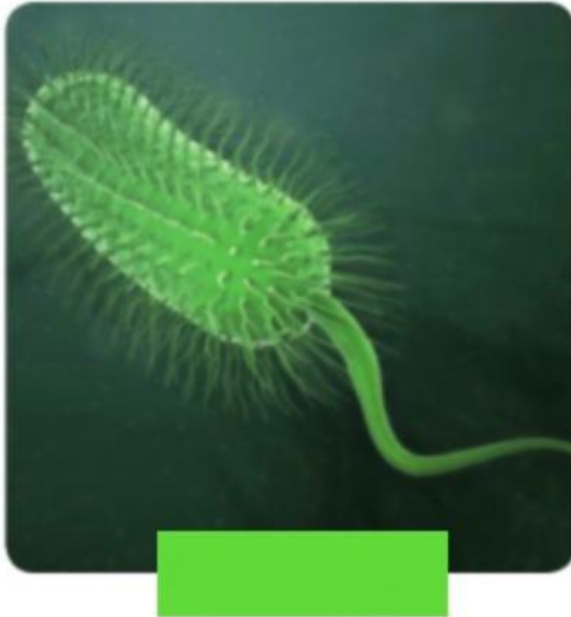

a) amoeba

b) protozoa

c) yeasts

d) bacteria

18.

What type of unicellular organism is?

- a) bacteria
- b) yeasts
- c) amoeba
- d) protozoa

22.

What is the name of the group of cells that join together to form_____ in a plant?

- a) tissue
- b) plant tissue
- c) organs
- d) cells
