Long Division practice #1 :

In math, division is the opposite of: _____
What are the five steps to long division?

1st _____

2nd _____

3rd _____

4th _____

5th _____

Now lets do this problem together. Use your notes if needed.

$$28 \div 7 =$$

Check: _____

Now You try this problem on your own. Use your notes if needed.

$$18 \div 3 = \quad \boxed{}$$

$$\underline{}$$

Check: _____

Now You try this problem on your own. Use your notes if needed.

$$48 \div 12 = \quad \boxed{}$$

$$\underline{}$$

Check: _____

Now You try this problem on your own. Use your notes if needed.

$$42 \div 6 = \boxed{}$$

Check: _____

Now You try this problem on your own. Use your notes if needed.

$$72 \div 8 = \boxed{}$$

Check: _____
