

Unit 5 Review

Question 1:

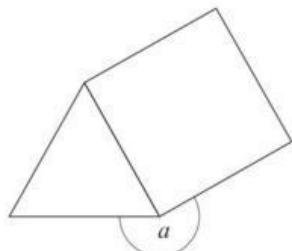

a. Work out the value of x .

b. Calculate the value of a .

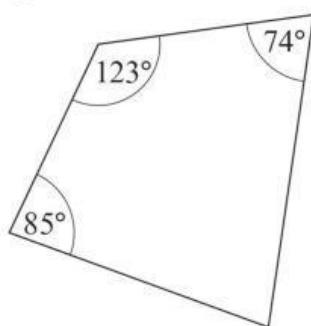

Question 2 An equilateral triangle and a square are joined together.

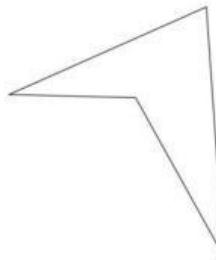

Work out the value of a .

Question 3 Work out the missing angle in this quadrilateral.

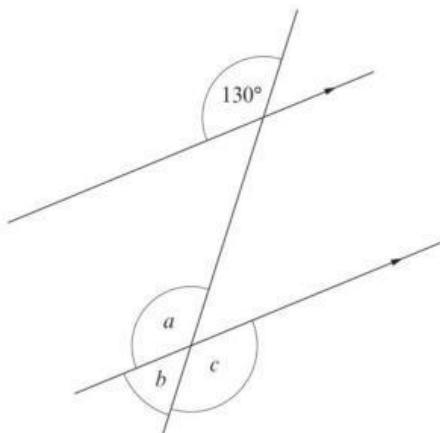

Question 4 The sum of the angles of any triangle is 180° .

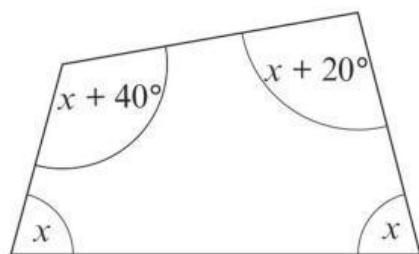

Use this fact to show that the sum of the angles of this shape is 360° .

Question 5 Work out the values of a , b and c .

Question 6 The angles, in degrees, of this shape are x , x , $x + 20$ and $x + 40$.

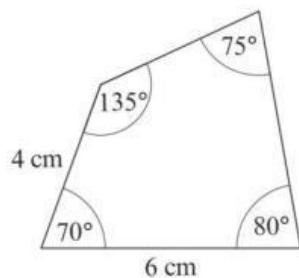

a Write an equation for x . _____

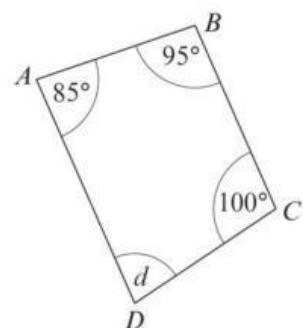

b Solve the equation. _____

c Find the values of the angles of the shape. _____

Question 7 Make an accurate drawing of this quadrilateral.

Question 8

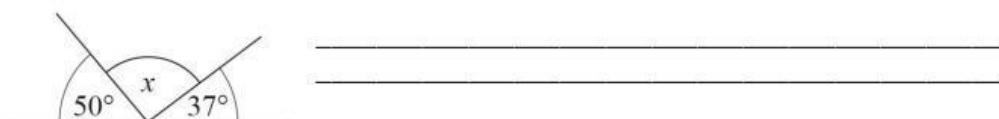

a Find the value of d .

b Show that two sides of the quadrilateral are parallel.

Question 9 Three of the angles of a quadrilateral are x .

Work out an expression for the fourth angle of the quadrilateral.

Question 10 Work out the value of angle x in this diagram.

Question 11 Write down the order of rotational symmetry for each of these shapes.[4 marks]

a

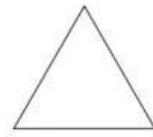

order _____

b

order _____

c

order _____

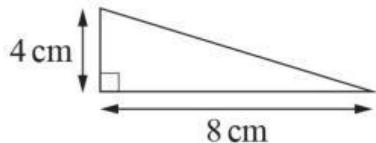

d

order _____

Question 12

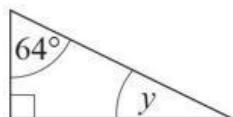

Work out the area of this triangle.

[2 marks]

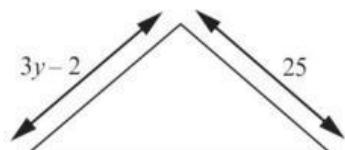

Question 13Work out the value of angle y in this triangle.

[2 marks]

Question 14

The diagram shows the lengths of the equal sides of an isosceles triangle.

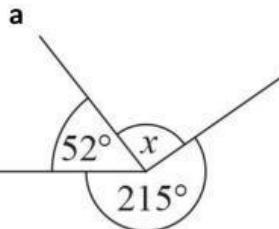

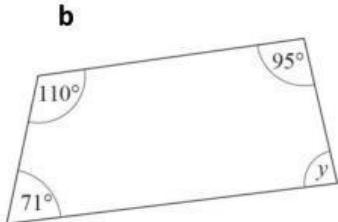

a Use the information to write an equation.

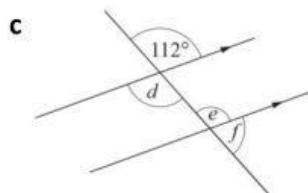

b Solve your equation to find the value of y .

Question 15

1 Calculate the size of each lettered angle.

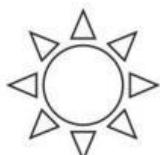

Question 16

a Draw the lines of symmetry on this shape.

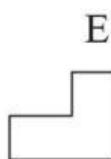

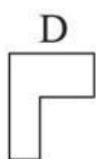

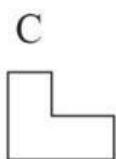

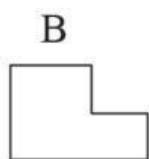

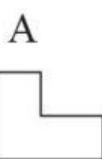

b Write down the order of rotational symmetry of this shape.

order _____

c Put a tick (✓) underneath all the shapes that are congruent to shape A.

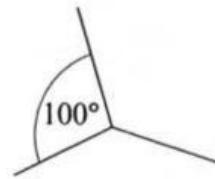

Question 17

Here are three angles. Two of the angles are equal.

The diagram shows one angle of 100°

Calculate the other two angles. There are two possible answers.

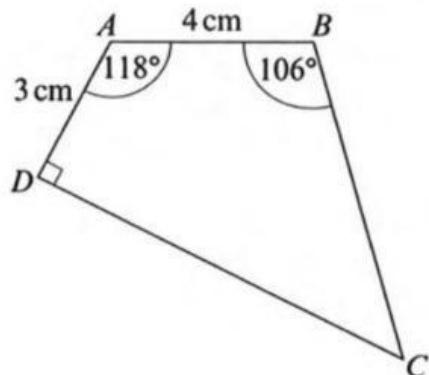

Question 17

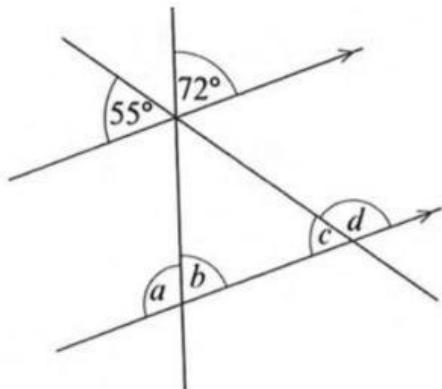

a. Calculate angle C $C = \underline{\hspace{2cm}}$

b. Make an accurate drawing of the quadrilateral.

c. Measure CD $CD = \underline{\hspace{2cm}}$

Question 17 Work out the unknown angles a,b,c and d

Question 18

a. Make an accurate drawing of this diagram

b. Measure angle C
