I. MATCHING

1. **AL.** Regarding budget. Read the following study case regarding Christopher who needs to create a monthly budget.

Here are some important suggestions:

- 1) Remember that the category 'utilities' includes basic expenses like electricity and phone bills.
- 2) When you enter the amount, make sure to include the dollar sign (\$).

Press the blue button then complete the activity

II. APPLICATION

2. **MR.** When you see or hear the word budget what do you think?

3. **MR.** Regarding above budget. Is Christopher's income greater than or less than his expenses?

When you finish, press the button that says 'Send to my teacher.' I will receive your exam immediately; you do not need to send or upload anything to Idubay.

I wish you the best of luck, and we're in this together to learn about finances."
