Multiple choice. Read the statement and choose the correct picture of the gadget. 5 pts.
One point each correct answer.

Reading: Read the following paragraph, read the questions and choose the correct answer. 5pts one point each correct answer.

Internet, be safe

While teenagers do use the Internet for research, sending e-mail to friends and family, and playing online games, their Internet usage patterns are much different than a typical adult. Social networking is a hugely popular pastime for teens. In fact, one recent study revealed that 61 percent of teens age 13-17 have a profile on a social networking site. Instant messaging is another online activity that is more common among teens than adults.
