- 2 August, Rafael, and Orlando collect baseball cards. August has 757 cards in his collection. Rafael has 153 fewer baseball cards than August but 228 more cards than Orlando. Which procedure can be followed to determine how many baseball cards Orlando has?

- F Find the sum of 757 and 153, then subtract 228 from the sum.
- G Find the difference between 757 and 228, then add 153 to the difference.
- H Find the difference between 757 and 153, then subtract 228 from the difference.
- J Find the sum of 153 and 228, then add 757 to the sum.

- 3 At the campout, the Girl Scouts used colored beads to make necklaces. They used the beads listed.

- 656 red beads
- 725 purple beads
- 710 yellow beads
- 675 green beads.

How many more purple beads than red beads did the girls use?

- A 106
- B 96
- C 79
- D 69

- 4 Adrienne wrote three number pairs according to a rule.

702, 567 365, 230 815, 680

Which other number pair fits Adrienne's rule?

- F 643, 508
- G 597, 460
- H 275, 150
- J 413, 274

- 5 This table shows the number of pounds of cans collected by three third-grade classes.

Can Collections

Class	Pounds
Mr. Burns	143
Mrs. Sessions	139
Ms. Chilton	162

How many more pounds did Ms. Chilton's class collect than Mr. Burns' class?

Record your answer and fill in the bubbles on the grid. Be sure to use the correct place value.
