H. No, he _____. He prefers to study quietly.

4. Read and check your answers. Discover how friendly you are!

If you're so busy that you often forget about your friends, stop and think for a moment! Friends are very important. If you've got good friends, there is always someone to talk to, someone to laugh with, and someone to help you with your problems. Life is more difficult for people who haven't got friends.
Remember that friends are not easy to get! If you want friends, you need to be friendly. Don't always wait for your friends to call you – make sure you call them sometimes too. If someone invites you to their house, invite them to your house next time. If they have problems, try to help them.
We can't choose our families, but we can choose our friends. If you're not friendly, people may not choose you!
