The environment

Read this article. For each of the numbers 1—21, underline the most appropriate word. There is an example at the beginning (0).

Nowadays, it is difficult to avoid (0) **environment / environmental** issues. We are always being told how (1) **polluted / pollution** is having an adverse effect on our (2) **planet / earth**. (3) **Poisoned / Poisonous** gases from factories destroy the (4) **oxygen / ozone** layer, contributing to the (5) **hothouse / greenhouse** effect which result in global (6) **warming / heating**. (7) **Acidity / Acid** rain is destroying forests. As more and more (8) **rainforest / desert** is destroyed, the threat to (9) **wildlife / wildly** life increases, with several (10) **dangerous / endangered** species already on the verge of (11) **extinct / extinction**. In brief, we are heading towards an (12) **ecological / ecology** disaster.

However, we can all do something to help protect the environment. For a start, we should try to (13) **reserve / conserve** energy (14) **resources / resorts** such as oil and coal, by turning down our central heating or making less use of our cars. Most cars use (15) **leadless / unleaded** petrol, but this still (16) **injures / damages** the environment. Secondly, since many everyday items such as glass and paper can be (17) **recycled / recharged**, we should try to re-use them rather than throwing them away. Thirdly, we can join (18) **pressurising / pressure** groups, which can be very effective in persuading governments to adopt greener (19) **politics / policies**, such as (20) **subsidising / subsidising** public transport and (21) **protecting / defending** wildlife.

Words often confused

Choose the correct word.

1. The factory produces tones of dangerous **rubbish/litter/waste** every month.
2. The dodo became **inactive/extinct/disappeared** in 1681.
3. I'm tired of breathing car exhaust **fog/fumes/smoke**.
