In many places, people face different health problems. Some people can have an ear infection, which causes pain in their ears. Also, some can get an allergic reaction to things which cause skin rashes like pollen *(phấn hoa)* or food. Another problem is chest infection which makes people feel hard to breathe. Mosquitoes are also dangerous because they bite people and spread *(lây lan)* illness like malaria. To protect ourselves, we can use insect repellent and burn mosquito coils to keep mosquitoes away. Sleeping under a mosquito net is another useful way. Mosquitoes live in warm, wet habitats where they lay eggs. Keeping our houses clean and dry is important to keep us safe and help reduce mosquitoes' lifespan.

David's Dream

David often had dreams about adventures in dangerous places. Last Sunday night, he had a really fantastic dream.

He was climbing a mountain. He was so high, there were clouds below him. Above him, he saw an eagle's nest in a hole in the rock. There were two white eggs inside. David didn't touch them, but when his right hand was near to the nest, an eagle appeared. Its wings were enormous. That was scary!

Then David saw the entrance to a really deep, dark cave. He moved carefully and quietly past it but then a huge brown bear jumped out and made a frightening noise. David hurried up the mountain. That bear had big teeth and very strong legs.

When David got to the top of the mountain, he saw some grass and lay down on it. He was really tired and was soon asleep. Then he heard someone say, 'Wake up, David. Wake up!'

David opened his eyes and saw his mother.

'I had another amazing dream about a mountain, Mum,' he said.

'That's strange!' David's mother answered. 'Because it's the first day of your summer holidays today and we're going to do something very special.'
