

Module	Canada – Famous Canadians
Competency	Reading CLB 3 – Comprehending Information
Task	Read article and answer questions.

Alexander Graham Bell: The Man Who Changed Communication

Alexander Graham Bell was born in Scotland, but he moved to Canada with his family when he was young. He was very smart and loved to learn about science and sound.

Bell worked with people who could not hear or speak. He wanted to help them communicate. One day, he had a big idea. He thought, "What if we could send voices through a wire?"

Bell worked hard in his small workshop. In 1876, he made a machine called the telephone. It could carry voices from one place to another. He said the first words on the phone: "Mr. Watson, come here, I want to see you."

The telephone changed the world. Now, people could talk to each other even if they were far away. Bell became famous, and his invention helped millions of people.

Alexander Graham Bell is remembered as a great inventor. His idea made life easier and connected people all around the world.

- Alexander Graham Bell was born in Canada. True False
- When Bell was in school, he liked to learn about
a. Geography b. History c. Math d. Science
- Bell worked with people who were (2 answers)
a. Blind b. Deaf c. Mute d. Paralyzed
- Bell had the idea, "What if we could send voices through
a. Paper b. Rocks c. Tools d. Wire
- In 1876, Bell made a machine called a
a. Telephone b. Telescope c. Television
- The first words on the phone were
a. "Hello! My name is Alexander Graham Bell."
b. "Mr. Watson, come here, I want to see you."
c. "Sorry, but I can't come to school today."
d. "What's your phone number?"
- Alexander Graham Bell is remembered for his
a. Being a good athlete c. Invention
b. Discovery d. Raising money for cancer
- Alexander Graham Bell's idea helped make life
a. Easier
b. More difficult
- People all over the world can talk with each other because of Bell's invention.
