

The Tennis Club

Rachel's favorite sport is tennis. She practices on Wednesdays in the afternoon. She plays at a tennis club on Saturday. She can hit the ball the hardest in the club. She is the fastest runner, but her friend Ellen is the best player.

Rachel won one game last Saturday, but Ellen won all her games. Rachel wants to be as good as Ellen.

| 1 Rachel practices tennis once a week. | True | False |
| 2 She plays tennis every day. | True | False |
| 3 She hits the ball the hardest at the club. | True | False |
| 4 She is the slowest player at the club. | True | False |
| 5 She is the best player at the club. | True | False |
| 6 Ellen is not the best player at the club. | True | False |
| 7 Rachel wants to win more games. | True | False |

3 Read and write (C) for Cause and (E) for Effect. / 6

When you go to a playground and sit on a swing you want it to move. Your friend pushes you and you go forwards. Your friend pulls you and you go backwards. When she gives you a hard push the swing goes high, and when she pushes you more softly, the swing doesn't go high. When you get off the swing when it isn't moving, you move slowly. But if you jump off when it's high, you move quickly.

1 You go forwards.

2 Your friend pulls you.

3 Your friend pushes you softly.

4 You don't go high.

5 You move slowly.

6 You jump off.
