

TA7. U6. A visit to school. Reading 1

Reading Article 1: "Our School Facilities"

Our lower secondary school is proud of its modern facilities. The school library is full of books and magazines, providing a quiet place for students to study. During break time, many students enjoy playing in the playground or visiting the school garden to water the flowers. For science lovers, the science lab is equipped with the latest tools for experiments. Students interested in technology often spend time in the computer room.

Our school canteen serves delicious meals, and students can relax there after a long day of classes. For sports enthusiasts, we have a large sports hall and a swimming pool. These facilities encourage students to stay active and healthy. We believe that excellent school facilities help students achieve their best.

Questions:

1. Where do students study quietly in the school?
2. What do students do in the school garden?
3. What equipment is found in the science lab?
4. Which facility is designed for sports lovers?
5. What can students find in the computer room?
6. Where can students enjoy meals at school?
7. When do students usually play in the playground?
8. How do the school facilities help students?
9. Name two places where students can relax during break time.
10. What is the purpose of the sports hall and swimming pool?

Reading Article 2: "Fun Activities at Our School"

Our school encourages students to take part in various activities. On Teacher's Day, students prepare special performances and sing English songs to show their appreciation. In the school garden, students often grow vegetables and take photos of their progress.

Outdoor activities like sports competitions or group games take place in the suburbs or in our spacious playground. These activities not only help students bond with each other but also stay fit. Teachers remind students to participate actively and enjoy themselves.

Questions:

1. When do students sing English songs at school?
2. What do students grow in the school garden?
3. Where do outdoor activities usually happen?
4. Why are outdoor activities important for students?
5. Who reminds students to participate actively?
6. What do students prepare for Teacher's Day?
7. What activity involves taking photos?
8. How do students show their appreciation on Teacher's Day?
9. Name one outdoor activity mentioned in the text.
10. Where do group games take place?

Reading Article 3: "Preparing for Exams"

Exams are an important part of school life. Our school holds a midterm test every semester to evaluate students' progress. Gifted students often help their classmates by explaining difficult lessons. Teachers encourage everyone to search for information in the library and use the projector during group discussions. The entrance examination for high school takes place in May. Students prepare carefully by reviewing history, biology, and information technology. Intelligent students often remind their friends to stay calm and confident. These exams teach students the importance of hard work and time management.

Questions:

1. When does the entrance examination take place?
2. Which subjects do students review for the entrance exam?
3. Who helps classmates by explaining lessons?
4. What tool is used during group discussions?
5. What do teachers encourage students to do in the library?
6. What type of test is held every semester?
7. What do intelligent students remind their friends to do?
8. How do exams benefit students?
9. Name one subject mentioned in the text.
10. What is the purpose of the midterm test?
