<p>6. Online /online/ En línea</p>	<p>7. Cyberbullying /saiberbulin/ Acoso cibernético</p>	<p>8. Content /content/ contenido</p>

PRACTICE N° 5

Risk and benefits of social media

Social media has transformed the way we communicate, offering both advantages and challenges. On the positive side, it helps people stay connected with friends and family, no matter where they are. It is also a powerful tool for sharing ideas, learning new things, and promoting businesses. Many young entrepreneurs, for example, use social media to reach customers and grow their brands.

Despite these benefits, social media comes with risks. Spending too much time online can lead to stress or reduce productivity. In addition, people may face cyberbullying, fake news, or privacy issues if they are not careful. Comparing one's life to the "perfect" images posted by others can also cause feelings of insecurity.

To enjoy social media responsibly, it is important to use it in moderation and think critically about the content. Protecting personal information and focusing on positive interactions can make social media a helpful tool rather than a harmful one.

**REMEMBER**

- Underline the vocabulary
- Circle the correct answer

1.- Answer the questions

1. Based on the text, what is social media?

- a) A tool for creating fake news
- b) A way to stay connected and promote businesses
